<b>Private Tutor</b> Self Employed	May 2022 - Present
<ul style="list-style-type: none"><li>Providing one-on-one tutoring in subjects such as Mathematics, Science, English for students from primary to secondary.</li><li>Creating personalized lesson plans to improve student understanding and academic performance.</li><li>Tracking progress and adjusting teaching methods to suit individual learning styles.</li><li>Building strong communication skills and time management through scheduling and parent interaction.</li></ul>	

## SKILLS

---

<b>Technical Skills</b>	<ul style="list-style-type: none"><li>●Programming Languages: Java, Python, JavaScript, C, C++</li><li>●Web Development: HTML, CSS, Tailwind CSS</li><li>●Database Management: MySQL, SQL</li><li>●Tools and Platforms: GitHub, Figma (UI/UX), VS Code</li></ul>
<b>Soft Skills</b>	<ul style="list-style-type: none"><li>●Problem-Solving and Analytical Thinking</li><li>●Teamwork and Collaboration</li><li>●Adaptability and Quick Learner</li><li>●Effective Communication</li><li>●Leadership and Initiative</li></ul>

## PROJECTS

---

**Online Farmer's Market and Bidding System:** Team Lead and UI/UX Designer — HTML, CSS, Tailwind CSS, Laravel, Vue.js, MySQL. Developed a web and mobile platform for farmers and buyers to trade products through real-time bidding. Designed all UI interfaces for web and mobile using modern responsive frameworks. Integrated secure login/signup with user role verification (Admin, Farmer, Buyer). Implemented features like payment gateway, notification system, and smart contract system.-[Link](#)

**NightFlix – Movie Server(Frontend):** HTML, CSS, Tailwind CSS, JavaScript Designed and developed a modern UI movie server website for browsing and streaming movie content. Built a responsive front-end interface using Tailwind CSS, ensuring seamless viewing across devices. Implemented JavaScript functionality for interactive features such as dynamic content loading and smooth navigation. Focused on user experience (UI/UX) with a clean, minimalist design inspired by modern streaming platforms.-[Link](#)

**AI Trip Planner:** Developed a dynamic, single-page application for creating personalized travel itineraries. Utilized the Gemini API to generate custom, day-by-day travel plans based on user input for destination, duration, and interests. The project features a sleek, responsive interface built with HTML, CSS, Tailwind CSS, JavaScript, and includes voice command functionality through the Gemini API for enhanced user experience.-[Link](#)

## CERTIFICATION

---

<b>Full Stack Development with MERN</b> GRAMEENPHONE ACADEMY	Jun 2025
---	----------

<b>Career Essentials in Data Analysis by Microsoft and LinkedIn</b> MICROSOFT and LINKEDIN LEARNING	Aug 2024
--	----------

<b>UI/UX Design for beginner</b> GREAT LEARNING	Jan 2023
--	----------

<b>Graphic Design</b> PENTANIK IT SOLUTION PARK	Jun 2021
--	----------

## LEADERSHIP

---

- Led UI/UX design for group projects (Online Farmer's Market and Bidding System).
- Coordinated with team members on research and front-end integration.
- Organized workflow, ensuring timely project completion.
- Took initiative in brainstorming creative solutions and presenting ideas.
- Decision Making - choosing the best solutions in critical situations.
